<tr>
<td>Interventions provide a way to get immediate supports to your child that are targeted to your child’s needs within the general education classroom and curricula.</td>
<td>Title V of the Rehabilitation Act (also referred to as Section 504) prohibits the exclusion of any individual, solely because of a disability, from participating in or benefiting from any program or activity receiving federal financial assistance including public schools.</td>
</tr>
<tr>
<td>An intervention plan is <strong>description of evidence-based strategies and/or supports based on the results of classroom assessments to address specific academic or behavior concerns.</strong> Students supported by intervention plans progress is monitored closely and needed changes are made to the plan when necessary.</td>
<td>504 Plans <strong>describe reasonable accommodations</strong> for students with disabilities so that they can participate in the same educational programs provided to other students.</td>

<td>A nonpublic school student with a disability receives special education and related services from the public school in accordance with a service plan. A service plan is similar to an IEP, but does not contain all of the components of an IEP. The full array of services available that are a part of a Free and Appropriate Public Education (FAPE) under an IEP are not required to be made available as a part of a service plan.</td>
<td>The written plan that describes how the student will participate in the general education curriculum (if appropriate) and identifies the special education and related services that the school will provide to the student. Once the IEP is developed, the CCC must review the IEP at least one time each year and make changes to the IEP as needed.</td>

Tips for successfully advocating and collaborating with your child’s school team

Know the rules.

Get to know the people who make decisions about your child's education.

Keep records.

Gather information.

Listen carefully and communicate effectively.

Know your child's strengths and interests and share them with educators.

Emphasize solutions.

Focus on the big picture.

Involve your child in decision making as early as you can.
